

# Clarizen Data Model (circa. April 2020)

**Special Cases:**

- Topic**: Any item with Discussions (Work Items, Cases, Customer, Expense Sheet, Expense, User, User Group, Discussion Group) can have multiple Topics (hashtags)
- Follower**: Any item with Discussions (Work Items, Cases, Customer, Expense Sheet, Expense, User, User Group, Discussion Group) can be Followed by a user.
- Like**: All Items, apart from Timesheets, Notes and Emails can be Liked by a user
- Data Object**: Same item linkages as Discussion Posts. Linked object is referred to as "Source" object
- Sharing**: Work Items, Cases and Customers have separate Permissions links which mirror Managers (Editor) and Reviewers (Viewer)
